DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 20 and 22 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 20 and 22, when considered as a whole, are directed to a program. A program does not fit into one of the four statutory categories of a machine, manufacture, composition of matter or a process.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 20 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 20 and 22 appear to claim a computer program per se, but then claim details regarding digital signal processing. The claim is ambiguous and it cannot be clearly discerned whether the claim is directed to a method for signal processing or a program. Appropriate correction is required.

Allowable Subject Matter

Claims 1 – 17 and 18 are allowed.
